

Donaldson Delivers
**Filtration Solutions
for the Marine Market**

On-Board or On-Shore,
Breathe Easy with
Donaldson Filters

Donaldson Filtration Solutions for Tugs, OSV, Crew/Supply Ships, Trawlers & Stevedoring

At Donaldson, we offer air intake, lube, coolant and transmission filters for a range of marine engines, z-drives, generators and compressors. We also offer a wide range of hydraulic filters and accessories for a variety of marine and stevedore equipment.

Filtration Products for On-Board & On-Shore Marine Applications

Air Filtration

Today's high performance engines and tougher emissions standards demand higher-performing air intake systems.

Air cleaners Since 1915, Donaldson has pioneered the development of nearly every major engine advancement in heavy duty air filtration. Nothing else performs like our industry leading air cleaners.

Replacement filters deliver better protection for heavy-duty off-road equipment with Donaldson Endurance™ filters or PowerCore® filtration technology.

Duralite™ disposable air cleaners are designed for high/severe pulsation conditions, ideal for two- and three-cylinder engines, propulsion units and gen sets.

Hydraulic Filtration

Performance under any pressure. Protect expensive hydraulic components with Donaldson's complete line of spin-on, cartridge-style and in-tank hydraulic filters.

Low Pressure filters rated for working pressures up to 350 psi, in-tank and in-line configurations.

Duramax

Medium Pressure Duramax® filters have become the industry standard for operating pressures up to 2000 psi.

High Pressure heavy-duty filters rated for pressures up to 6500 psi for critical applications.

Cartridge style DT filters, using Donaldson Synteq™ media technology, help extend the life of heavy duty equipment.

Off-line filtration polishes new lubricating oils and achieves baseline ISO cleanliness levels – prior to dispensing into equipment, gearboxes and reservoirs.

Lube Filtration

Donaldson lube filters keep oil clean by capturing contaminants that can cause engine damage.

Lube filters capture wear metals, soot and contaminants to maintain today's higher cleanliness standards.

Donaldson
Endurance

Extended service lube filters operate longer between service intervals with Donaldson Endurance™ filters with Synteq® media.

Filtration Products for On-Board & On-Shore Marine Applications

Clean Fuel & Lube Solutions™

Removing contaminants and controlling moisture in your bulk supply tanks prior to pumping fluids into equipment allows on-board filtration systems to do their job better. Donaldson can design a system that's a powerful first line of defense in protecting your equipment.

Clean fuel and lube solutions
Bulk assemblies feature parallel flow configurations to reduce pressure drop.

CLEAN.

Single pass filtration allows you to achieve targeted fluid cleanliness on the inlet side.

PROTECT.

Tank accessories control dust and moisture entering bulk storage tanks with the T.R.A.P.™ vent breather and the Active Reservoir Vent™.

POLISH.

High pressure filters are specially designed for point-of-use applications on the outlet side.

Mufflers and Exhaust Accessories

A complete line of mufflers, clamps and exhaust accessories.

Mufflers for medium- and heavy-duty diesel powered equipment.

Clamps and accessories reduce exhaust leaks and noise.

Filtration Accessories

Reduce costs and eliminate over-servicing with our complete line of air intake, engine liquid and hydraulic filtration accessories.

Fuel Filtration Products for On-Shore Marine Applications

Fuel Filtration

Donaldson fuel filters help keep your on-shore engines and equipment running smoothly. They're a better way to filter fuel.

Note: Fuel/Water Separators with plastic parts are not for use in on-board marine applications.

Fuel filters Donaldson provides filtration solutions that protect engine components and help extend equipment life.

Cummins® engines Twist&Drain™ filters with integrated WIF sensors simplify the complicated task of removing water.

Cummins® is a registered trademark of Cummins Inc. Racor® is a registered trademark of Parker Hannifin Corporation. DAVCO® and Fuel Pro® are registered trademarks of DAVCO Technology, LLC.

Racor® fuel systems Twist&Drain™ filters with threaded sensor ports work with existing WIF sensors.

DAVCO® Fuel Pro® 380/382/482 Fuel Processors
Affordable replacement cartridges for a variety of applications.

For more information on our full line of filtration products and accessories, visit crossreference.donaldson.com.

donaldsonfilters.com includes even more valuable marine info

We've made it easier to FIND YOUR FILTER!...Oh, and exhaust, accessories, air cleaners, hydraulic components and...much, much more.

- It's easy to navigate.
- Every page includes direct links to our most up-to-date, online Cross Reference, Application Search and distributor locator (Where to Buy). Each of these important tools are ONE CLICK AWAY no matter where you go in the site!
- Includes links to **YouTube Service Training videos**.
- See how Donaldson filters apply across a wide range of industries and equipment.
- PLUS, the website works on your smart phone...which we can all agree is a very smart idea!

Be sure to check it out at **donaldsonfilters.com!**
