*Third Quarter - 2024*

*From the Captains Chair – Harry Allen Jr*

## Hurricane Helene

First on my mind is thoughts and prayers for all our fellow countrymen who were impacted by Hurricane Helene. The devastation is mind boggling; we are thankful our Tampa branch escaped the storms wrath. The cleanup will require all the chipper and grinder resources in several states. Our company has significant inventory to assist in this effort.

Dana's acquisition of Fairfield/Torque Hub is providing the company a pathway into the final drive marketplace in North America. A team of GLP techs were trained at the Lafayette Indiana plant on Torque Hub application and repair.

The Marine Travelift team sold and assembled the first variable width 50BFM11 to Fox Chapel Marine in Pittsburgh. The customer needed to be able to pick larger boats as well as optimize both yard and indoor space.

The Texas team has brought Ken Prosize on board who has already attended Travelift/Shuttlelift training, and he is totally engaged in the sale of parts, units and service.

We are now fully staffed in the manufacturing group and working through our backlog. They will welcome any opportunities our branch and field sales teams can generate.

We are encouraged by the number of large projects in the quotation stage. Our facilities and technical excellence is a good recipe for engaging our OEM partners.

Speaking of recipes, enjoy the holiday quarter and thank you all for your contribution and commitment. Take time to express thanks to our customers as well during this season of Thanksgiving.

*Harry L Allen Jr*

The Exeter branch and Twin Disc service dealers, Gillespie Marine and R.I. engine Company, were glad to support the annual "Lobsterfest" bringing and cooking the lobsters straight from the fresh clean waters of the North Atlantic!

**WELCOME**  
**TO THE** **TEAM**

**Please Join Me in Welcoming Steven Dumek To Our Engineering Team.**

Steve is originally from Pittsburgh and now lives in North Madison. He has a Bachelor of Science in Mechanical Engineering from the University of Pittsburgh and yes, he is a Steelers Fan.

Steve enjoys Motorsports and follows; IndyCar, Formula 1, World Endurance Championship, and the World Rally Championship. His hobbies include; being outdoors, cars, motorcycles and BMX racing – anything with two or more wheels!

We are excited to have Steven as part of the GL Power family!

Steve is currently located at the Perry Office and will be moving to Madison in the near future.

**Harry III**

**MADISON**

**Please join in welcoming Steve Howe to the team in Madison.**

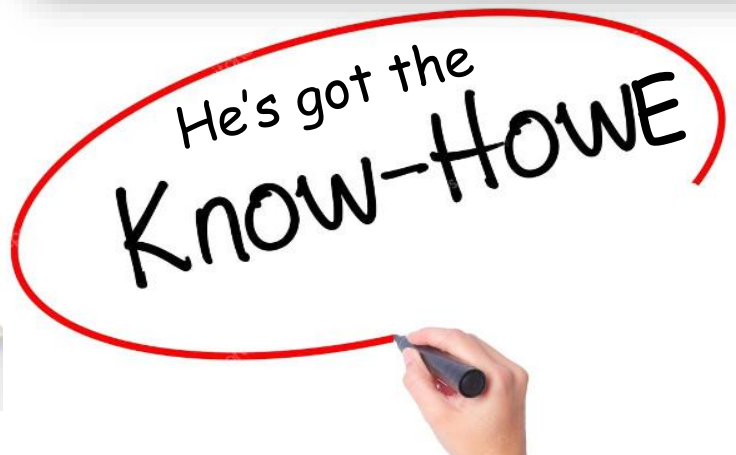

Steve Howe (yes, another Steve) joined our corporate headquarters in Madison, Ohio as our operations manager on July 15, 2024.

Steve (who originates from Rittman, Ohio) moved to Concord, Ohio with his wife, Nichole, and two sons, Joey 6 and Nolan 4, in 2022 to be close to his very Italian in-laws. **MAMMA MIA!** 

Steve enjoys camping, golfing, the Cleveland Browns and Ohio State Buckeyes

Steve will be leading the new facility and warehouse team in Madison.

**WELCOME**  
**TO THE** **TEAM**

**Congratulations to the following employee(s)  
in achieving a major service milestone.**

**JULY 2024**

Denise Monty– Madison, Oh – **30 years**  
Matthew Goldstein– Exeter, Oh – **10 years**  
Jerry Hale– Evansville, IN– **5 years**

**AUGUST 2024**

Victor Perz – Cincinnati, OH – **5 Years**  
Kodi Cordle – Perry, OH – **5 Years**

**SEPTEMBER 2024**

# Nucor Steel Utah

**MADISON**

Bill Long and Harry Allen III visited the SMM Show in Hamburg in September and afterwards were hosted by Juan Sotelo for a plant visit and meetings at the TwinSA factory in Belgium.

Bill and Juan are seen here sampling some fine Belgium Beers and the streets in Brussels are definitely "Bill Long – Fun Sized."

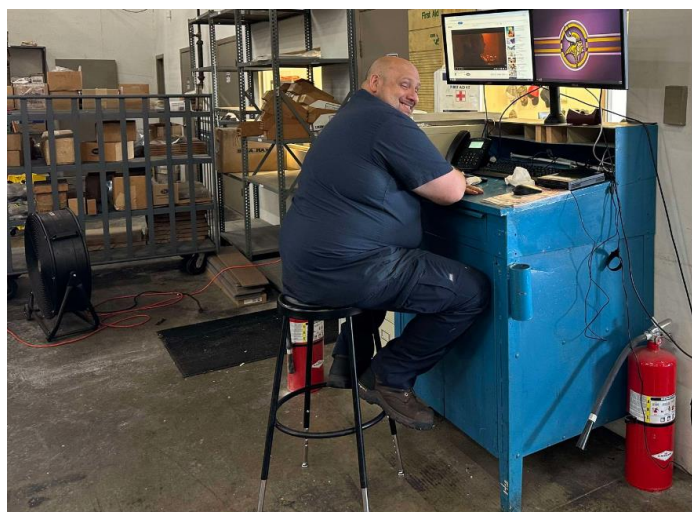

# Sales & Service In the Spotlight

CINCINNATI

Cincinnati is officially the Cincy Campus. We moved the sales office into the warehouse and set up a secondary shipping and receiving location to allow for the expansion of service at the Devitt location. Located at 4642 Interstate drive the warehouse now consists of Vic and Cliff in sales and Mike managing the warehouse and shipping. We're still in the process of getting everything situated

TYLER ODER SERVICING A MOXY TRUCK IN MADISON

EVANSVILLE

Welcome  
to the  
team

Hello, I'm Brad Raley from Evansville, IN. I am a 2013 graduate of the University of Evansville; I began my career with MSC Direct as an industrial supply outside sales representative.

Over nearly 11 years, I've specialized in selling small parts and maintenance supplies across Indiana, Kentucky, and Illinois.

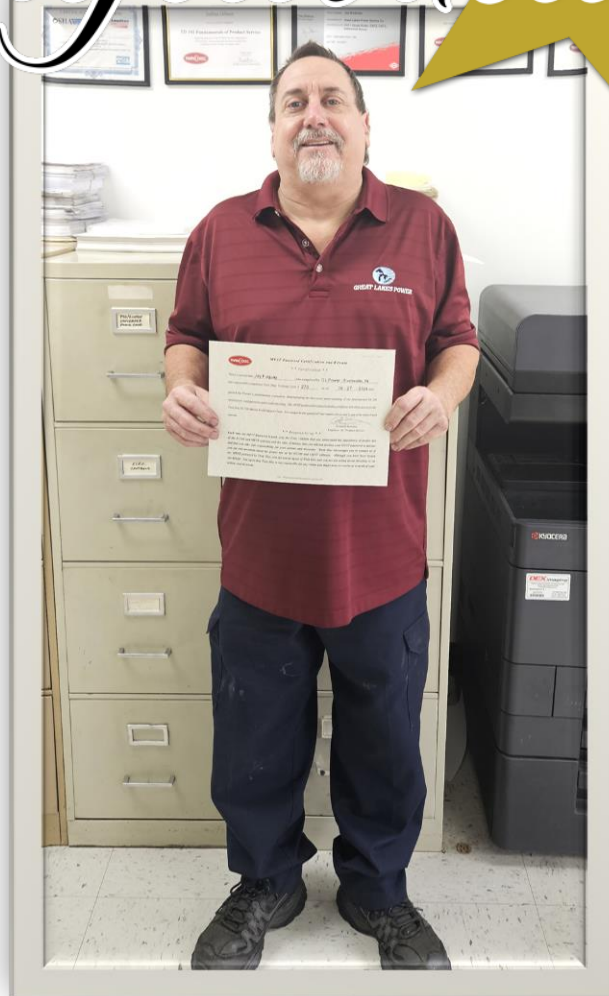

This year has been exciting on the personal front as well—I married my wife, Kandice, in April. We're also busy with our energetic 2-year-old, Cameron, and our three cats: Sam, Ruby, and Rose.

In my downtime, I enjoy family activities, introducing Cameron to new experiences, and unwinding with crime and fantasy movies alongside Kandice. I'm enthusiastic about joining the GL Power team at the Evansville branch and eager to contribute to our shared success.

You did it!  
*Congratulations*

Technician Jay Fuquay has successfully completed TD-275 EC300 Electronic Controls class. We're anxious to get Jay some field experience. He is the 3<sup>rd</sup> current Evansville Technician to achieve this status.

Congratulations Jay!

*Tim Titus*

EVANSVILLE

The Evansville Service department has been productive, completing multiple MG5600 rebuilds along with various industrial transmissions and axles.

We've continued to experience growth through our relationships with partners serving the Mining industry. We've continued to deliver axles at an increasing rate and aren't looking back!

**PERRY**

Congratulations to Ray Pierce on the birth of his son Vinny, January 4<sup>th</sup>, 2024, weighing in at 7lbs, 8oz, and 20.5 inches long.

GL Power workers just keep getting younger!!  
Vinny is already running the Perry forklift!

FORT LAUDERDALE

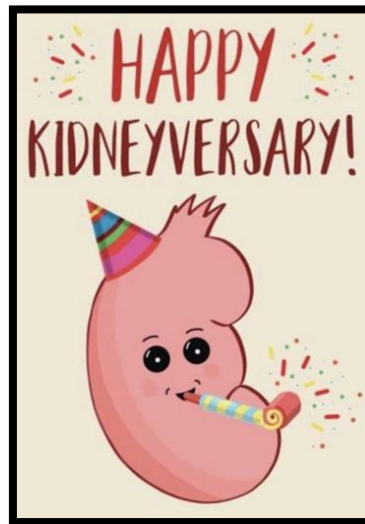

## FELICADES MARIA!!!!

Most of you know that Maria Novo (office manager in Fort Lauderdale) is the recipient of a kidney transplant. This past week, we celebrated the one-year Kidney-Versary with her!! It's been a great success story, but it's attributed to Maria and her mindset to let nothing stop her.

Maria was on the transplant list for over 2 years and prior to her surgery in 2023, she was giving herself dialysis at home daily – including before coming to work each day. The weekend before the actual transplant, she received a call that a matched donor was found; after a long wait all afternoon and into the overnight hours, the doctors determined that organ was not viable. I spoke to her the next morning and, Maria being Maria, she told me she wanted to get some rest then come to work. I told her to stay home, get some sleep and mentally “recharge” because I could not imagine how she was feeling emotionally. That was a Friday afternoon – over the weekend, they found another matching donor and she had her successful DOUBLE transplant!!!

Her doctors are starting the process of reducing her multiple medications and expanding her diet based on how well she's doing – so far be it from the office to deny her what she wants to eat!! A lunch of grilled chicken (Cuban spiced), rice/beans/salad all topped off with an ice cream cake!! Lisa and Evelyn got her a commemorative shirt and some flowers to show her how happy we are for her and appreciative that she's better each day!!!

## UPFITS – UPFITS – UPFITS

A pair of Cummins engines arrived; we sold and held a pair of MG5065A transmissions waiting to upfit!! Replaced the couplings and housings for SAE 1, supplied drain hoses for the engine and transmissions, took measurements, painted the gears to match and assembled them together!!

– another engine pair is on its way to us for another upfit sale in October!

FORT LAUDERDALE

# FL | FORT LAUDERDALE INTERNATIONAL BOAT SHOW

GL Power partnering with Twin Disc and Hamilton Jet again this year for the largest pleasure craft boat show in the United States.

Lauderdale is preparing an HJ241 jet for display; with the assistance of Matt and the NAPP team, we're also showcasing an MGX5146 unit (with interior lights), an MGX5065 and an EC600 display from Twin Disc!!

## EC600PC

Electronic Control System

Controller mounted on and prewired to QuickShift® transmission

Simplest control system to install

EJS® ready

Single-lever control of engine RPM and transmission engagement, with engine synchronization and trolling modes

Express™ mode ready, allowing full range of speed control through single lever travel

Includes active system monitoring, diagnostics and fault indication with event logging and optional data display

SmartChip™ LIN interface on transmission enable fast and easy setup with pre-stored configuration data

The TD marketing team also helped with new single page spec sheets with QR code designations so the customers can scan in the booth and collect more info!! Will have photos of the booth, the show and our annual customer dinner/crab boil for the December edition!

## Quarter three has been a whirlwind here in Exeter!

We are thrilled to announce Ben Kopp our new service manager.

Ben has a long history in the New England marine industry, beginning as a launch operator holding a USCG license, running the docks, yard and parts department at a marina in Salem, MA to running a service department of a large boat dealership in Peabody, MA.

His 6-year-old twins, Madeleine and Arlo keep he and his wife, Laura, quite busy. Ben and his family love spending time outdoors, especially at the beaches near their hometown of Beverly, MA. An avid live music fan, Ben sees as many shows in the Boston area as time allows.

Ben is looking forward to continuing the success of our service team.

*Matt Goldstein*

Welcome  
to the  
team

EXETER

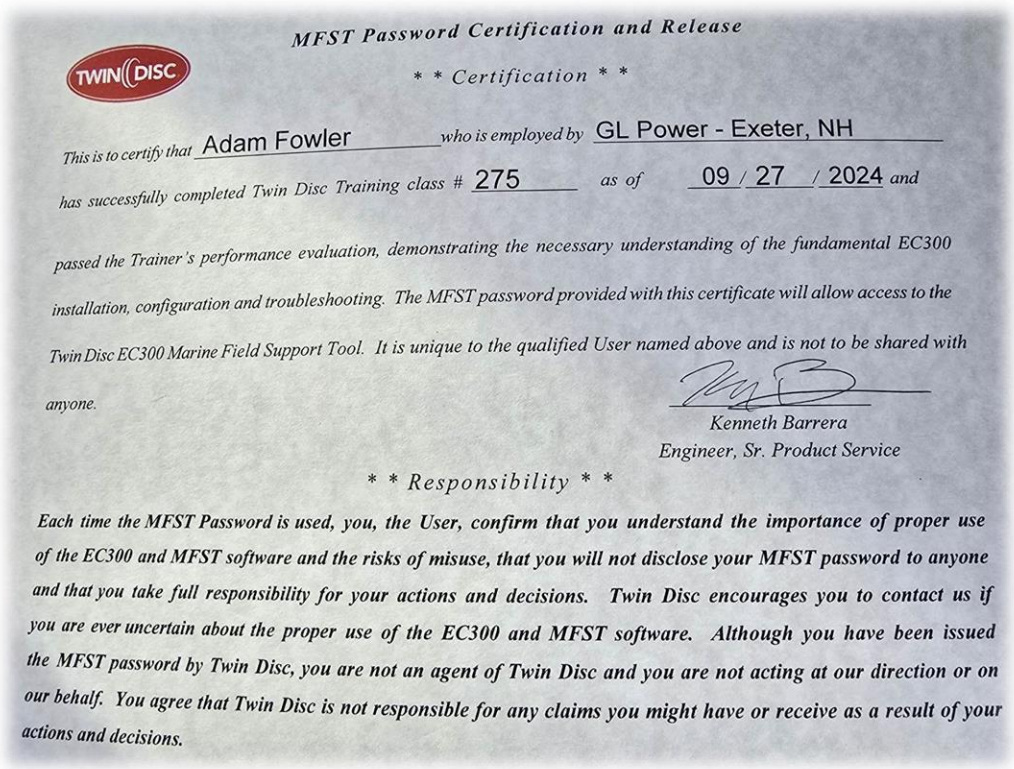

We are super proud of our Service Writer and Technician, Adam Fowler, who just passed his Twin Disc controls EC300 training after recently completing the EC600 coursework and training!

These are high-level certifications and difficult coursework conducted at the Twin Disc factory in Wisconsin.

Adam is a great friend and employee who is now even more valuable to our business, his fellow employees and, most importantly, our customers.

Congratulations, Adam!

Jay Perrotta

MFST Password Certification and Release

\*\* Certification \*\*

This is to certify that Adam Fowler who is employed by GL Power - Exeter, NH has successfully completed Twin Disc Training class # 275 as of 09 / 27 / 2024 and

passed the Trainer's performance evaluation, demonstrating the necessary understanding of the fundamental EC300 installation, configuration and troubleshooting. The MFST password provided with this certificate will allow access to the Twin Disc EC300 Marine Field Support Tool. It is unique to the qualified User named above and is not to be shared with anyone.

[Signature]

Kenneth Barrera Engineer, Sr. Product Service

\*\* Responsibility \*\*

Each time the MFST Password is used, you, the User, confirm that you understand the importance of proper use of the EC300 and MFST software and the risks of misuse, that you will not disclose your MFST password to anyone and that you take full responsibility for your actions and decisions. Twin Disc encourages you to contact us if you are ever uncertain about the proper use of the EC300 and MFST software. Although you have been issued the MFST password by Twin Disc, you are not an agent of Twin Disc and you are not acting at our direction or on our behalf. You agree that Twin Disc is not responsible for any claims you might have or receive as a result of your actions and decisions.

The Grey Lady IV a high-speed ferry servicing Nantucket equipped with four MGX61500's marine transmissions is getting a repower. We supplied the original transmissions and have just delivered a pair of MGX61500's for their repower this fall. Along with the transmissions we supplied all new input couplings and oil coolers.

We have also been awarded the maintenance rebuilds on the units that are being removed.

**ROADWARRIOR**

Exeter's "Road Warrior" technician, Dave MacGibbon, has put on thousands of miles doing gear swaps.

Dave does outstanding work everywhere he goes, they recognize and truly appreciate his service!

**EXETER**

# The New England Public Works Expo

This year we participated in the New England Public Works Expo in Marlborough MA, September 18<sup>th</sup> & 19<sup>th</sup>.

The expo was flurry of activity with public works teams from all over New England. We were able to make some great connections with equipment dealers, retailers, and end users.

We also attend most sea trials involving Twin Disc. This 46' Wesmac is a fine example of a super high-end Downeast Sportfish with MGX gear and multiple station EC600 controls.

This boat represented extra work and long hours and is a huge deal for this fisherman who, prior to this boat, he could never exceed 10 knots.

Now he is doing 27 knots, and he loves Twin Disc!

**EXETER**

GL Power technician, Ben Allen, supporting both our partners, Milton CAT and the Maine State Ferry System, with the commissioning of a brand-new ferry.

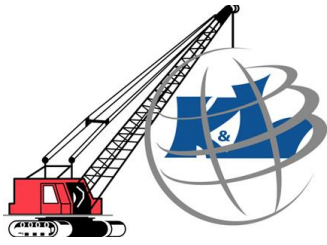

**A few words from Jay!**

We continue to support local organizations within our industry to include commercial fishing, passenger vessel operators, windfarm developers, recreational fisherman and charter boat operators.

In an axiom proven true over the year. Here GL Power's Bill & Michelle Long joined Jay Perrotta racing and promoting the at the Stonington, Maine Lobster Boat Races.
