GL POWER, INC. ACQUIRES REESE MACHINE CO., INC.

Acquisition Expands Manufacturing Capabilities and Supports Continued Growth

MADISON, OHIO – APRIL 1, 2026 - GL Power, Inc. has acquired Reese Machine Co., Inc., a long-time supplier of contract machining services. This strategic acquisition expands GL Power’s manufacturing capabilities and capacity, further strengthening its ability to support customers with integrated solutions.

The business will continue operating as Reese Machine LLC from its current location in Ashtabula, Ohio. The existing team, equipment, and leadership will remain in place, with Dale Reese, former owner of Reese Machine, continuing as General Manager to ensure continuity in leadership, quality, and customer support.

The addition of Reese Machine enhances GL Power’s vertically integrated capabilities, particularly in precision machining and component manufacturing. GL Power’s expanded geographic reach and access to new markets will also create additional opportunities to leverage the capabilities of Reese Machine.

“This partnership represents a natural evolution for Reese Machine,” said Dale Reese, General Manager of Reese Machine LLC. “By joining forces with GL Power, we are able to maintain the team, quality, and responsiveness our customers expect while gaining access to additional resources that will allow us to expand our capabilities and position us for continued growth.”

“Reese Machine has built a strong reputation for precision machining and customer service,” said Harry L. Allen Jr., Chairman of GL Power. “We are excited to welcome their talented team and continue building on that legacy. By combining the strengths of both organizations, we believe we can deliver even greater value, responsiveness, and technical capability to our customers.”

Customers and partners can expect continuity in operations, personnel, and service, along with enhanced capabilities resulting from the combined strengths of both organizations. No immediate changes to customer contacts or processes are anticipated.

About GL Power, Inc.
